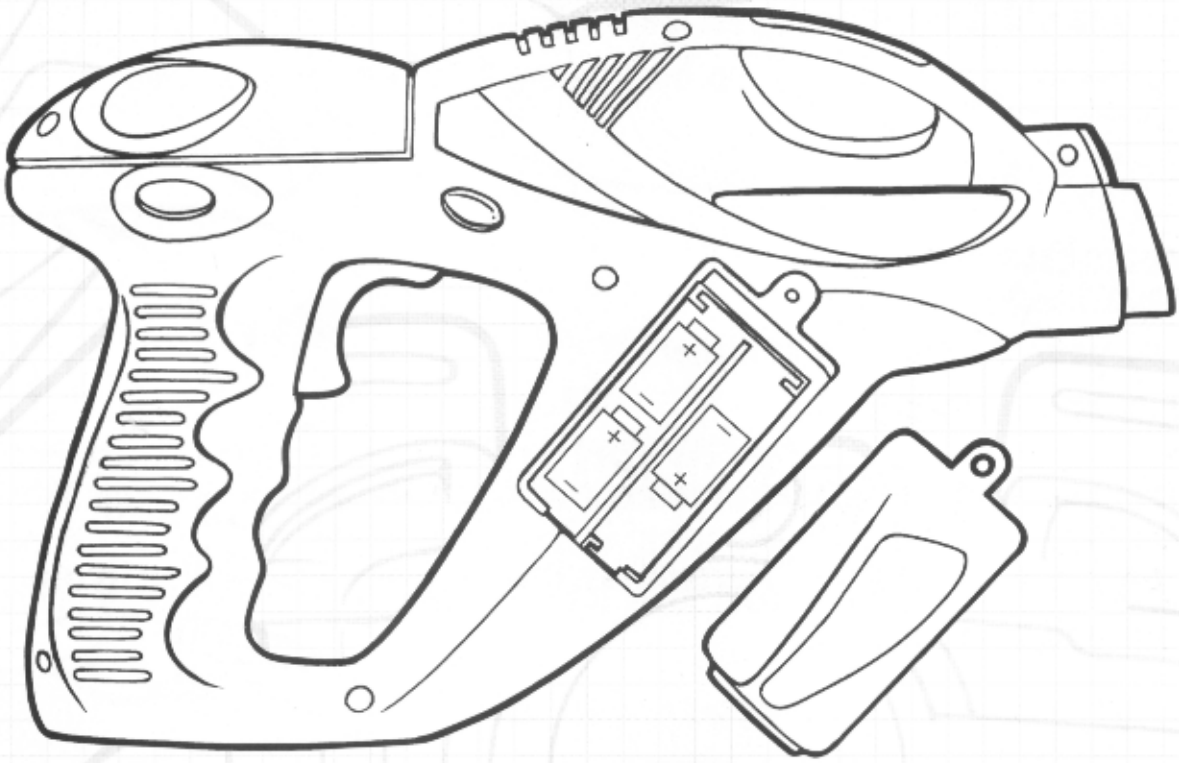
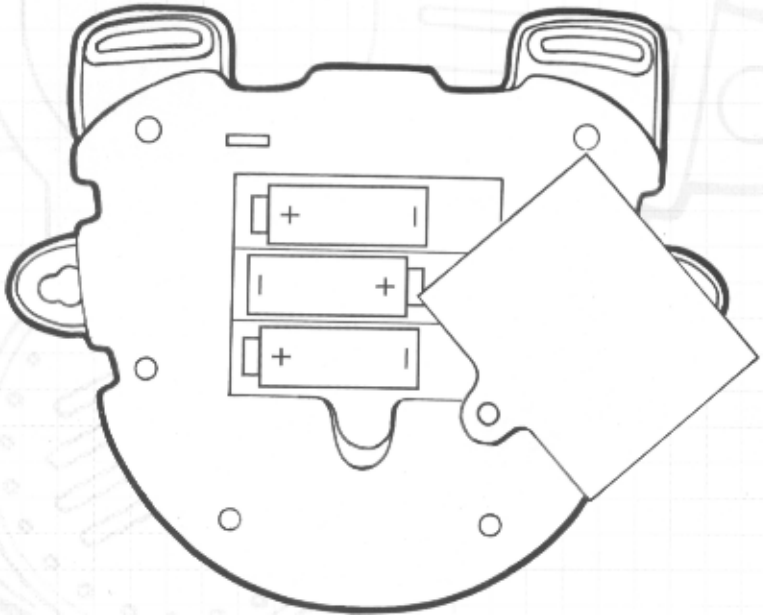
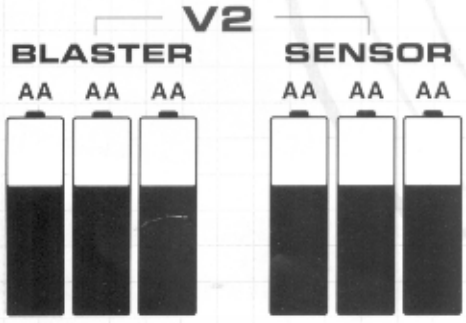
INSTRUCTIONS

Start Up: Power your V2 gear by installing fresh alkaline batteries.

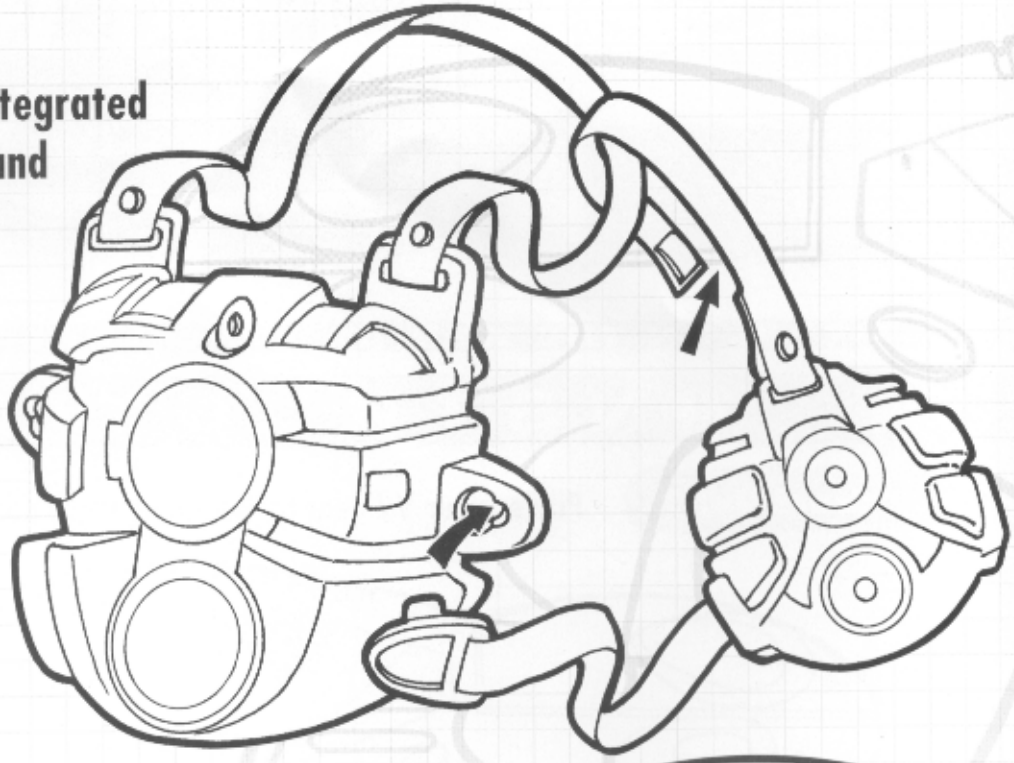






Suit Up:

Equip all players with integrated front and back sensors and V2 laser blasters...

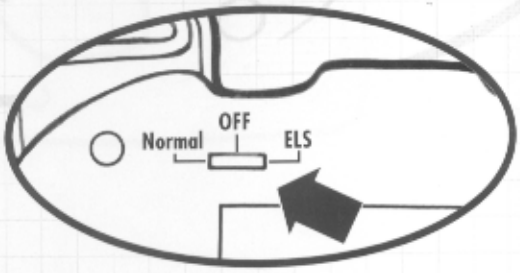


Prepare for Play:

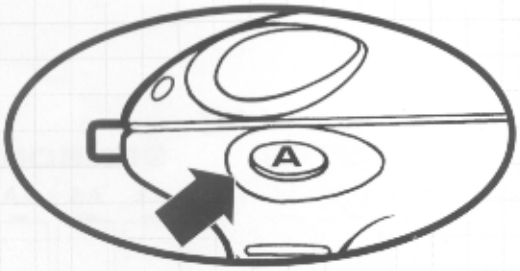
- Power up your V2 blasters in either silent mode or standard mode.

Note: Some key sound effects will remain when silent mode is engaged.

- Power up you V2 sensors --"Normal" switch on front vest will activate BOTH front and back sensors.



- Press the Arm button to load your blaster with 25 shots. You may re-arm at any point and as many time as necessary during a game...for now

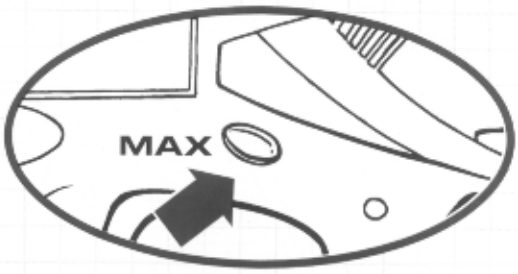


RUN!

After approximately 30 seconds, you will here "ready" tones from your Blaster and Vest. These tones mean that your V2 advanced functions are now available.

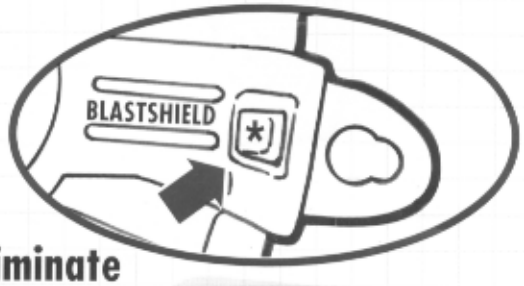
MAXBLAST:

V2 blasters are equipped with 3 Maxblasts. Hit an opponent with one and you will score 3 hits. Press the "MAX" button on your blaster and your next shot will be a Maxblast. Maxblasts are available any time after the ready sound, until you have used all 3.



BLASTSHIELD:

V2 sensors are equipped with 3 Blastshield force fields. Press the "blastshield" button on your front sensor and a blastshield will activate, making you invincible for 5 seconds! Blastshields are available any time after the ready sound, until you have used all 3.



YOUR GOAL-eliminate all opponents before they eliminate you! It takes 10 hits to be eliminated.

SPECIAL INSTRUCTIONS:

Special Note: DO NOT REMOVE the PLUG inside the ELS ADAPTER PORT unless you are installing an ELS ADAPTER. THE BLASTER WILL NOT WORK IF THIS PLUG IS REMOVED.

Upgrade your equipment with ELS Adapters and the ELS Game system to access the most powerful laser game scoring system ever. The ELS Game System has the ability to track and record ALL GAME PERFORMANCE INFORMATION for up to 8 different players! It records who hit you, how many times you fired, what your accuracy rating is AND MORE!

ALL Laser Challenge V2 equipment is capable of playing on the ELS Game System.

Battery Requirments:

SOLO GEAR = 6 AA Batteries
TWIN GEAR = 12 AA Batteries

Fresh batteries will increase your Blaster's range and the sensitivity of all accessories. Should any component malfunction, try replacing batteries. If this does not work, call customer service.

IMPORTANT! OBSERVE THE FOLLOWING PRECAUTIONS TO PREVENT BATTERY LEAKAGE:

• Ask adult to replace batteries. • Be sure to insert batteries as instructed. Always follow the battery manufacturer's instruction. • Always use alkaline batteries. • Never mix old and new batteries. Replace batteries at the same time, in pairs. • Never mix alkaline, standard (carbon-zinc), or rechargeable (nickel cadmium) batteries. • Do not use rechargeable batteries. • Always remove weak or dead batteries. • Check that the contact surfaces are clean before installing batteries. • Remove batteries from the battery compartment before extended storage.

You are preparing to engage in the most advance laser play ever....
